

To scale our team, we are looking for a

Platform Engineer with Specialization on Cloud DevOps

Scigility combines academic and practical knowhow to a unique data centric service offering for our customers. **We define, build and operate integrated analytics platforms**, build applications to create new insights to our customer's data and support customers within the legal framework.

Your Tasks

- Design and develop **cloud-based & hybrid solutions**, leveraging state-of-the-art technologies, tools and methodologies
- Build, operate and maintain **distributed, high-available systems for data analytics**, either on cloud- / hybrid or on-premise platforms
- Create workflows to facilitate **automated setup, configuration, security and deployments** as Infrastructure-As-Code artifacts
- Review, audit and troubleshoot existing solutions and system architectures
- Participate in **customer workshops** and presentation of the proposed solutions
- **Explore available technologies** to provide business support to our clients

Your Profile

- Degree in Computer Science or equivalent
- Valid Swiss working permit
- You are a proactive team player with the ability to work independently and accurately in interdisciplinary projects
- You are curious about new technologies and willing to learn
- Strong problem solving skills
- Strong command of English. Good knowledge of German and/or French is beneficial
- Hands-on experience with cloud environments (**AWS / Azure / GCP**)
- Hands-on experience in applying **laC** and **deployment automation**
- Proficient in **Linux administration** and **networking** setup and troubleshooting
- Experience in setting up **secure & high-available** distributed systems (SSL, Kerberos, SSO, ...)

Your Bonus Skills

- Hands-on experience in **Big Data technologies** (Hadoop, Kafka, ...)
- Experience with microservices, Docker and Kubernetes

Your Opportunities

Design your career with Scigility in a culture that promotes innovation and diversity. We offer you to join a young and professional team in an environment that constantly opens new doors through knowledge sharing, flexibility and recognition.

Your Application

We are happy to receive your application online via jobs@scigility.com. For further information please contact Gerd König (jobs@scigility.com).
